HYDRA MULTI-VERTER
type U 10-50 M - 5"-125mm

THE MULTI-HEAD VALVE FOR CONCRETE PLACING LINES

HYDRA Multi-verter allows you to simplify the pipeline layout thanks to its multi-head system.

In fact, HYDRA can direct a concrete flow from an input line (connected to the pump) to many output lines, connected to the placing sites.

HYDRA multiplies your pump!
HYDRA multiplies your options!
HYDRA multiplies your ideas!
